

CLOUD COMPUTING TUTORIALS – SESSION 1

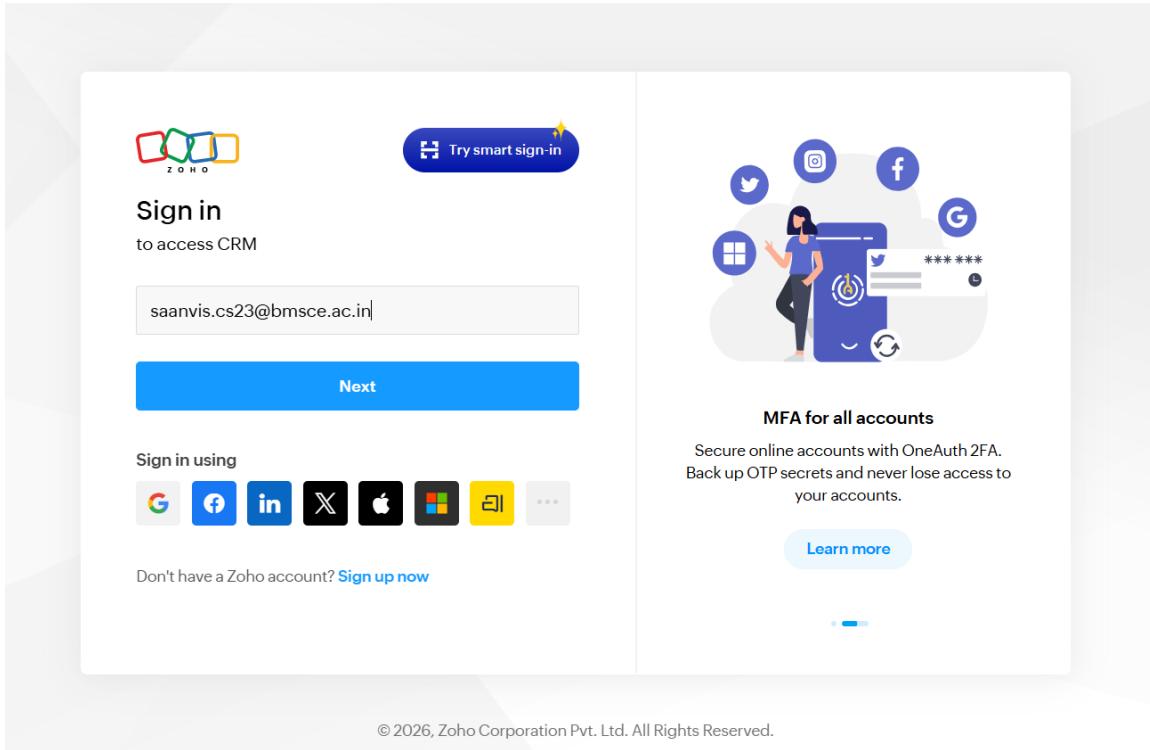

Figure 1: Zoho CRM Login Page

This screenshot shows the Zoho CRM sign-in page. The user enters their registered email ID to access the CRM system. The page also provides options for passwordless sign-in, third-party authentication (Google, Facebook, LinkedIn, etc.), and account creation. This demonstrates secure authentication mechanisms used in cloud-based CRM applications.

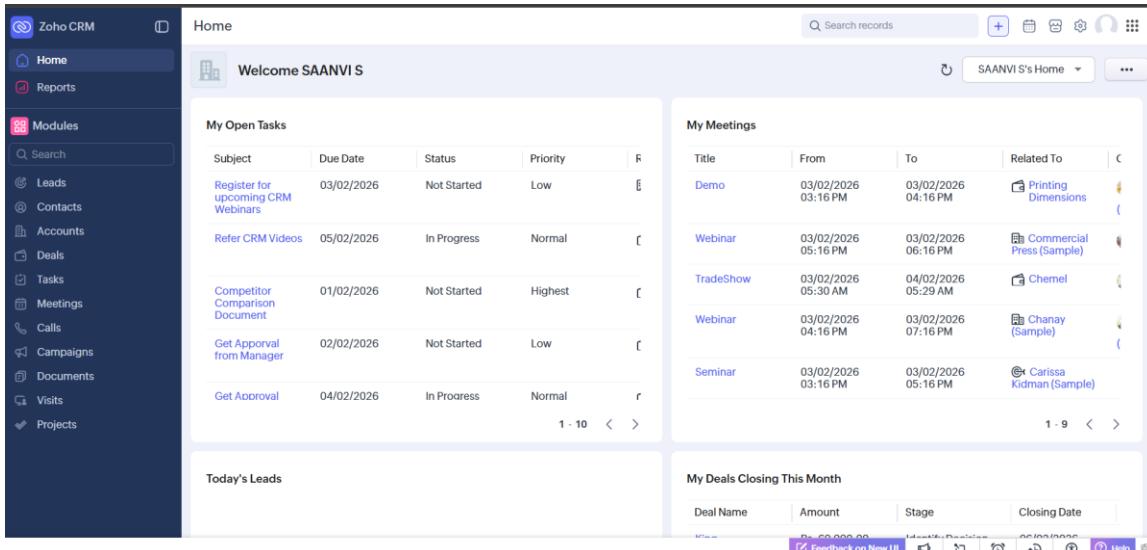

Figure 2: Zoho CRM Home Dashboard

This image displays the Zoho CRM Home dashboard after successful login. It provides an overview of open tasks, meetings, leads, and deals. The dashboard acts as a centralized cloud interface where users can monitor activities, manage schedules, and track customer interactions in real-time.

Leads		Search records			
		All Leads	Converted Leads	Junk Leads	Mailing Labels
<input type="checkbox"/>	Lead Name	All	Company	Email	Phone
<input type="checkbox"/>	Christopher Maclead (Sample)	Rangoni Of Florence	christopher-maclead@noemail.invalid	555-555-5555	
<input type="checkbox"/>	Carissa Kidman (Sample)	Oh My Goodknits Inc	carissa-kidman@noemail.invalid	555-555-5555	
<input type="checkbox"/>	James Merced (Sample)	Kwik Kopy Printing	james-merced@noemail.invalid	555-555-5555	
<input type="checkbox"/>	Tresa Sweely (Sample)	Morlong Associates	tresa-sweely@noemail.invalid	555-555-5555	
<input type="checkbox"/>	Felix Hirpara (Sample)	Chapman	felix-hirpara@noemail.invalid	555-555-5555	
<input type="checkbox"/>	Kayleigh Lace (Sample)	Printing Dimensions	kayleigh-lace@noemail.invalid	555-555-5555	
<input type="checkbox"/>	Yvonne Tjepkema (Sample)	Grayson	yvonne-tjepkema@noemail.invalid	555-555-5555	
<input type="checkbox"/>	Michael Ruta (Sample)	Buckley Miller & Wright	michael-gruta@noemail.invalid	555-555-5555	
<input type="checkbox"/>	Theola Frey (Sample)	Dal Tile Corporation	theola.frey@noemail.invalid	555-555-5555	
Total Records 10					
< 1 to 10 >					

Figure 3: Leads Module

This screenshot represents the Leads module in Zoho CRM. It shows a list of potential customers with details such as lead name, company, email, and phone number. Users can filter, sort, and create new leads. This module demonstrates how cloud computing enables centralized data storage and easy access to customer information.

The screenshot shows the Zoho CRM Tasks module. On the left is a dark sidebar with navigation links: Home, Reports, Leads, Contacts, Accounts, Deals, Tasks (selected), Meetings, Calls, Campaigns, Documents, Visits, and Projects. The main area is titled 'Tasks' with a search bar and filter/sort options. It displays tasks grouped by status: 'Not Started', 'Deferred', 'In Progress', and 'Complete'. Each status box contains a list of tasks with details like title, due date, priority, and assignee. A note 'No Tasks found.' is visible in the 'Deferred' section.

Figure 4: Tasks Module

This image shows the Tasks module, where activities are categorized by status such as Not Started, In Progress, Deferred, and Completed. Users can create and manage tasks efficiently. This reflects how cloud platforms improve productivity through task management and collaboration tools.

The screenshot shows the Zoho CRM Meetings module. The sidebar includes Home, Reports, Leads, Contacts, Accounts, Deals, Tasks, Meetings (selected), Calls, Campaigns, Documents, Visits, and Projects. The main area is titled 'Meetings' with a search bar and filter/sort options. It lists scheduled meetings with columns for Title, From, To, Related To, and Contact Name. Each meeting row includes edit and delete icons. A note 'Total Records 9' is at the bottom, along with a 'Feedback on New UI' link and navigation buttons.

Figure 5: Meetings Module

This screenshot presents the Meetings module in Zoho CRM. It lists scheduled meetings with details such as title, time, related records, and contact names. Cloud-based scheduling ensures synchronized access to meeting information across devices and users.
